Explanations	

Within the scope of the strategy and investment plans shared in our announcement dated 23.06.2023, focusing on one of the prioritized areas, "green hydrogen" and "green ammonia" production, a Memorandum of Understanding (MoU) has been signed between Tekfen Holding A.Ş. and Enerjisa Enerji Üretim A.Ş.

Through this MoU, the parties will negotiate with goodwill to work on a joint investment plan for low-carbon footprint green ammonia production, and collaborate on the engineering and installation activities of the facilities that could be established for this purpose. The form of collaboration will be determined during the negotiations, taking into account the principles outlined in the MoU.

We proclaim that our above disclosure is in conformity with the principles set down in "Material Events Communiqué" of Capital Markets Board, and it fully reflects all information coming to our knowledge on the subject matter thereof, and it is in conformity with our books, records and documents, and all reasonable efforts have been shown by our Company in order to obtain all information fully and accurately about the subject matter thereof, and we're personally liable for the disclosures.
